

Gleichen-Galt

TWENTY-SECOND YEAR NO. 17

GLEICHEN, ALBERTA, WEDNESDAY JULY 18, 1928

SUBSCRIPTION \$2.00 PER YEAR

Blackfoot M. D. Meeting Councillor Nominations Saturday

Minutes of the seventh meeting of the Council of the Municipal District of Gleichen, No. 128, held in the municipal office.

Those present were Reeve McLean, Mayor; Reeve McLean, member; Dr. James Dugan, Dr. Maynard.

The minutes of the previous meetings were adopted as read on motion by Councillor Maynard.

Coun. Dow: That the Secretary be authorized to pay the premium on the insurance on the municipal property.

It was reported to the council that the road signs on the highway between corner of the W. 15-23-21 that was a nuisance to a ralayer had been removed.

Coun. Dow: That we with regret accept the resignation of Councillor Elder, who has tendered it in account of poor health and the secretary, by letter, thank Mr. Elmer Young for his services and has rendered the municipality during his term of office.—Carried unanimously.

It was adopted on motion by Coun. Maynard to set aside \$700 for goods supplied as relief by E. W. Callison to a resident of the municipal district by payment.

The mayor reported that upon advice from the reeve he had ordered two cars of lumber from the Consumers Lumber company, Vancouver, at a cost of \$37.5 per 1000 feet each.

Mr. Elmer Young reported that upon advice from the reeve he had ordered two cars of lumber from the Consumers Lumber company, Vancouver, at a cost of \$37.5 per 1000 feet each.

Coun. Maynard: That Coun. Dunstan and the reeve be requested to help him in making a committee to deal with the complaint of Mr. S. DeJardin, verbally lodged this day, regarding the bridge between section 10 and 11, which they are authorized to proceed with the work at the expense of the division wherein located.—Carried.

A motion by Coun. Maynard was adopted, that Saturday, July 21st, be the date of nomination for the election in section No. 4, to fill the vacancy through the resignation of Councillor Elder, that the nomination be held in Craignash school and that Mr. Murray be appointed returning officer.

Mr. McLean: That the wild lands taxes levied against the north half of N.W. 42-23-21 for the year 1928 amounting to \$7.80 be canceled as being under grazing lease.

The sum of \$3 goes against a portion of the N.W. 42-23-21 by road diversion was cancelled as carried on a motion by Coun. Sen.

Coun. Dunstan: That the cancellation of the wild lands tax admissible for residents by the cancellation of taxes levied during 1927 against the improvements in respect of Block 16 and 17, Plan 6753 A.D., be rejected.

Coun. Maynard: That the increase of current estimates requisitioned by Craignash school district \$500 and Jeanne d'Arc school district \$800 be also rejected.

Coun. Thompson: That the court of revision in respect to the appeals against the 1928 hamlet and business assessment be held on Tuesday, Aug. 1st.

Coun. Maynard: That the owners of the west half 33-22-21 be notified to remove fence from the road allowance west of their land.—Carried.

Coun. McLean: That the accounts, payrolls and contracts as aforesaid by the finance committee be passed and carried aforesaid.—Carried.

Dr. G. E. Simmonds announces in this issue that his office in future will be at the Gleichen Hospital, where he will conduct a general medical and surgical practice, including dentistry.

Gleichen's Hockey Star Married

Marguerite Mich., Mining Journal: Miss Margaret Nelson, daughter of Mrs. Rose L. Nelson, 100 Centre Street, married to Joseph Dugan, G. Young son of Mr. and Mrs. James Dugan of Gleichen, Alberta, Canada.

The ceremony was performed at 8 a.m. on the morning of St. Peter's cathedral by the Rev. H. A. Buchholz. Miss Margaret Coughlin was bride-maid and Joseph Siegel was best man.

The bridal gown was of white satin with a long train, the bodice close fitting, and the skirt with the mouth irregular hemline. Her pale veil was arranged with a Juliet cap effect held in place with a single strand of pearl beads, and a cluster of orange blossoms at either side of the young woman's head.

Young was showered a bouquet of white roses and pale pink and white sweet peas.

The bride's frock was of light blue muslin georgette crepe with a long white sash and bouffant skirt. The dress was trimmed with rhinestones as was the matching tulip headband. Her arms were decorated with roses and pink and white sweet peas.

Following the ceremony the bridal party met at the home of the Dugans, Mr. and Mrs. William Antilla. The room was decorated with pink and white streamers and flowers of the same color.

At 5:30 o'clock in the afternoon a wedding dinner was served in the home of the Dugans, Mr. and Mrs. Peterson on Tuesday, July 10, when their only daughter, Mildred Iron was united in marriage to David William Macdonald, a High School student of the town.

The bride and groom were joined in a happy couple in the Gleichen Community Hall next Saturday night.

When James Dugan, director, was asked if he would make this picture of the happy couple, he said that the wedding photo would be the only competition among the best aquatic exponents to be found. As a result of this idea, the reeve in "Her Summer Hero" present all the swimmers of a genuine water carnival.

Duke Kahananouku, holder of many world's records, was the most enthusiastic as he was a parent of the Blackbirds hockey team.

Mr. and Mrs. Young will reside at 421 Centre and Queen where they will locate on Kinghorn, Ontario, where the group will play professional hockey.

The groom is well known to both members of the Blackbirds hockey team.

The groom is well known to both members of the Blackbirds hockey team.

Even in the case of the picture many names well known in swimming circles are to be found. Bert Trevor, leading man, owns the sprints in his college days. Cleve Moore, who plays a prominent part in a chess club, river boat and golf clubs include Danie Thompson, Sally Blane, Harriet Goodwin and James Pierce.

With all of these noted athletes competing well, it was no task to get a crowd together for atmosphere at the big race scenes. On the other hand, the question was that of controlling the huge crowd which gathered along the beach-side and on the pier at the St. Catherine Hotel.

St. Andrew's Sunday School will hold their annual picnic on Wednesday, July 23rd. The children, parents and other members of the church will meet at the school at 1 p.m. and will be very much entertained if the members and friends of the church will send their children to help convey the children down to the river.

Mr. H. Roulstone has just arrived in Gleichen and elsewhere in this issue announces he is prepared to accept unearths in painting, decorating, signs, their carts, etc.

Wonder why the street light at the Cal Corrison resort to stand tall less than one-third of the time? We need the lights! kind of helps those busing parties that pass in the night.

SIGNS OF A BETTER ERA

The period of prosperity now so generally prevalent throughout Canada and the United States has manifested itself in lines and cities over all this continent, and is being felt to a steadily increasing extent in Great Britain and other European countries, seems to present to some the illusion of minds and actions in opportunity and success, the old "strike" weapon. When times are hard, business depressed, with large numbers of men unemployed and anxiously seeking work, the agitator urging men resorting in employment to "strike" has a hard row to hoe, but when times are good, it is the employer who may be compelled by the strong demand for labor, the agitator sees his opportunity to make trouble. Fortunately, both employers and employees have learned from past experience that industrial warfare does not pay, any more than does war between nations, that the only way to settle a dispute is to meet it on the vanquished; and the general public which after all is the greatest surety is now more and more inclined to sternly oppose the calling of a "strike".

Relations between the bosses on the one side and the men on the other have been better and become more cordial in recent years through a realization of what might ought to be done to keep along well and harmonious relations between the two interests. Employers and employees have to live in entire communion. The Toronto street railway is municipally owned—the men belong to the city. The management pointed out to me that the men's demands would necessitate an increase in fares. This brought the issue right home to every resident of the city, and the men were compelled to realize that the principal users of the cars. Had the system been privately owned, people probably would have felt that any increased expense to the men's demands could not be out of profit, and that no increase in fares was unacceptable but that the men's demands were to be entirely complied with rather than to accumulate protests, the statement of the management was accepted not as a bluff, but that either increased fares, or operating deficits to be borne by the city.

So when the matter of calling a "strike" finally came to a vote of the street railway employees, the men themselves rejected it by a vote of one to one in favor of arbitration, a very healthy indication of some thinking on the part of the men.

Another Toronto labor incident may be cited as indicating the newer and more reasonable point of view now actuating labor men. Structural steel workers of the largest steel mills in the city were compelled to compel their employers to close shop and lay off during the last ten years of mining no distinction between the skilled and non-skilled men but treatment was the same. The men worked at the same rate and produced other branches of the building trades to go to work in sympathy with them, but without success, and even the International Union, it is understood, refuses to endorse the attitude of the strikers.

The situation concerning the strike in this age of the big steel mills of methods of war are growing more and more in defiance, no matter in what direction or cause they may be employed. People are becoming more and more aware of the fact that arbitration, whether in the industrial area, or between individuals, is settled through the orderly processes of law and arbitration, and not by striking at each other's throats and engaging in combat, in which countless thousands of absolutely innocent persons are made to suffer.

The Riddle of the Arctic

No Record Of Former Climate Conditions Has Been Found

Austrian Doctor Claims Experiment Has a Success.

It may be possible in the near future to find out what not more than a few centuries ago the Arctic Ocean lay for a time virtually free of ice, that condition it would have been if there had been no primitive man kind between Asia, Europe and North America.

After a year's experiment, an Austrian doctor has succeeded in forcing certain animals, notwithstanding the cold of winter, to maintain strength and body heat.

The procedure of the doctor consists of massaging the skin with a mixture of fat, protein, sugar and necessary vitamins. This is absorbed into the system and has an invigorating effect on the body, especially because in it is almost entirely absorbed.

Colonel Bullring, "Vicar," you compound parish magazine says I have mouthed up in accidents."

"I am very sorry to hear that—when do you with the funeral to take place?"

"I'd sooner he'd praise me to the bone," was the quiet reply.

"You're doing well, young fellow," said the shopping clerk encouragingly.

"The foreman praises you to the sky."

"He did me no good. One day the druggist asked me if I had ever tried

"On his recommendation I bought a bottle and after I had taken it got some relief. But the pain returned and I never had the dysentery since."

"Put up only by The T. Miller Co., Limited, Tuscar, Ont."

It may be possible in the near future to find out what not more than a few centuries ago the Arctic Ocean lay for a time virtually free of ice, that condition it would have been if there had been no primitive man kind between Asia, Europe and North America.

After a year's experiment, an Austrian doctor has succeeded in forcing certain animals, notwithstanding the cold of winter, to maintain strength and body heat.

The procedure of the doctor consists of massaging the skin with a mixture of fat, protein, sugar and necessary vitamins. This is absorbed into the system and has an invigorating effect on the body, especially because in it is almost entirely absorbed.

Colonel Bullring, "Vicar," you compound parish magazine says I have mouthed up in accidents."

"I am very sorry to hear that—when do you with the funeral to take place?"

"I'd sooner he'd praise me to the bone," was the quiet reply.

"You're doing well, young fellow," said the shopping clerk encouragingly.

"The foreman praises you to the sky."

"He did me no good. One day the druggist asked me if I had ever tried

"On his recommendation I bought a bottle and after I had taken it got some relief. But the pain returned and I never had the dysentery since."

"Put up only by The T. Miller Co., Limited, Tuscar, Ont."

NEWCASTLE and MIDLAND COAL

at Low Cost

If you could have exactly the kind of car you wanted, what are the features you would demand?

You would want Performance . . . stamina to stand long, trying trips.

Then you would want Style, of course—the latest in body lines—modern, low, racy lines—the newest and most modish colorings. You would want Safety . . . the latest in safety devices.

And you would like a Luxurious car . . . one with wide, deep cushions that invited rest . . . with rich, plush upholstery . . . with a leather top . . . with moon roof . . . one with strong protection against the weather . . . one with a motor that was quiet and smooth . . . Last, but no means least, you would demand Quality . . . substantial construction . . . refinements . . . a smooth running engine . . . a smooth drive . . . a Crankcase Breather . . . Vacuum-Fed Fuel Supply . . . Safety Glass . . . Fans in rear . . . and so forth . . . details that are all important in the condition of a car.

These are the things everyone would like to have in his car. And these are the things you can get in the first car in automobile history, at the low cost of the "Biggest and Better" Chevrolet. 6-14-142

QUEEN'S HOTEL — GLEICHEN

Last week in Gleichen the folks said everyone is at the Galt exhibition; and in Calgary all we met said they believed everyone in Gleichen is here—it must have been true.

While fruit is hard to get in town at present—in fact more than in several years. Many residences are there showing such better appearances.

A lot of paint is being used in town at present—in fact more than in several years. Many residences are there showing such better appear-

ances.

Many will regret to learn that Ron

Elliott has resigned his seat in the

Peace River country, where they

spent several weeks looking it over.

They report it to be a very fine section

and say thousands of people are

heading in those parts.

Town & District

Now is the time to eat those ugly weeds.

It looks like a real bumper crop all right.

Lil Pettit has been in Gleichen since the stampede. Mr. and Harry Scott have left for a trip to the mountains.

R. C. Clifford and boys are enjoying a vacation in Banff.

Adjutant and Mrs. Bannister and family are spending a vacation in Banff.

So far very little damage by hail reported throughout the Gleichen district.

Why not turn a flick of sheep loose in town under a shepherd and see the weedy vassoose.

Rev. F. M. R. Gibney and Rev. Gibney are at Banff enjoying a vacation with their families.

The continued applications of cinders, gravel and earth is making a good improvement to our streets.

The Gleichen auto camp is proving all that was expected and is being enjoyed by folks from all parts of America.

Dave Wilson is now cutting Gleichen wood crop, and with all the moisture Dave has some real work ahead.

All preparing to improve their premises with paint, will fall to the Gleichen Hardware in this issue.

With some nice steady warm weather the Gleichen crop will soon be ripeening with every prospect of being a real bumper.

Just now the merchants are marketing the flowers for lack of cooperation. Neither the farmers will laugh the other way.

D. Hutchison, manager of the Royal Bank, has left with his wife and family to spend a few weeks vacation at Sylvan Lake.

Did you notice those artistic subways on every street in Gleichen? They are a credit to the town.

Many of the houses in Gleichen are there showing such better appear-

ances.

Many will regret to learn that Ron

Elliott has resigned his seat in the

Peace River country, where they

spent several weeks looking it over.

They report it to be a very fine section

and say thousands of people are

JOINING THE WHEAT POOL IS GOOD BUSINESS

A Toronto Business Man, Owner of Alberta Farm Land, Says He Would Not Think of Staying Out of the Alberta Wheat Pool.

J. T. Todd, general manager of the J. T. Todd Lumber Company, Toronto, Ontario, is the owner of a large tract of land in the Crowfoot district in Alberta. He is a staunch member of the Alberta Wheat Pool. In fact, so interested is Mr. Todd in the pool's development, that he is endeavoring to persuade non-pool neighbors to join the organization.

In a recent letter to a neighbor at Crowfoot, Mr. Todd says:

"Dear—
I have often wondered if you had joined the Wheat Pool. If you have not, I believe if you will consider this matter seriously you will find it to your interest to be a member of the Pool. As you know the pool is the only farmer in business for himself, and the more successful the pool becomes the more benefit it will bring to all of us. It is a great idea of operation and not only the farmers doing this in this industry, such as the automobile and steel are doing the same. The people in the steel and the automobile business are considering the same in the world and they are on the way to following the lead when farmers have pointed to them during the last few years. Stores are also doing the same."

"I hope if you will consider this matter from your own best interests and the best interests of the community and farmers at large you will decide that YOU CANNOT AFFORD NOT TO BE A POOL MEMBER. You should not think of being outside the pool myself and I hope you will join us. We are in the middle of spring, and you know, 200 acres of that is now broken and will be in crop next year. All of my land is in the pool and in fact, if I had ten times as much land as I have, I could hand it over to the other way through the pool."

"I would like to see you and all the other fellows in the Crowfoot area join the pool. The pool is strong and could not be beaten in the world. That is what we want in time. I believe that with the way the movement is growing we will eventually have it."
